Gender PPP Toolkits

[Gender PPP Toolkit](#)

This toolkit provides practical tools and guidelines for developing gender responsive PPPs. Gender responsive PPPs incorporate design features, measures, and specific actions for reducing gender inequalities (or closing gender gaps) within the community stakeholders that the project affects directly or indirectly.

[A toolkit for promoting gender equality in public-private partnerships](#)

This tool kit aims to offer practical tips on what gender issues should be considered across the PPP development cycle and what gender actions can be taken for different infrastructure sectors in response.

[Gender Equality, Infrastructure and PPPs](#)

This primer points out that best practices at the intersection of gender equality and infrastructure PPPs are still evolving. It is a first step and hopes to spark inspiration for PPP project teams aiming to ensure their projects promote gender equality.

[Reference Tool on Inclusive Infrastructure and Social Equity](#)

A practical evidence-based framework for practitioners to maximise the impact of infrastructure investment on reducing inequality and increasing the positive social outcomes of large infrastructure projects for often

under-served or vulnerable groups.

[Toolkit on Gender Equality – Results and Indicators](#)

This toolkit aims to assist development practitioners to ensure that gender perspectives are incorporated into development initiatives, and to monitor and evaluate gender equality results.

[Gender, Law and Policy in ADB Operations: A Toolkit](#)

The Toolkit provides general background on the gender dimension of the law and policy frameworks

Sector-Specific Gender Toolkits

Transport

[Gender Toolkit: Transport](#)

The toolkit provides guidance for transport sector specialists and gender specialists by drawing attention to the gender dimensions of transport, and how to mainstream gender equality issues into transport project design, implementation, and policy engagement.

[Toolkit for Making Road Infrastructure Projects Gender Responsive](#)

This toolkit for mainstreaming gender in transport infrastructure projects gives an overview of gender issues in transport infrastructure and services in the Philippines.

[India - Toolkit for Enabling Gender Responsive Urban Mobility and Public Spaces](#)

The toolkit is divided into two volumes, with the first volume focused on high level guidance for policymakers, while the second provides a 'How-to' guide including practical tools for implementing agencies

[ITF Gender Analysis Toolkit for Transport](#)

The International Transport Forum Gender Analysis Toolkit for Transport Policies is a comprehensive set of tools to conduct gender analysis, including Checklist, Indicators, and Questionnaire.

[A Toolkit for Redefining Opportunities for Women in Transport](#)

A Toolkit for Redefining Opportunities for Women in Transport is a comprehensive resource designed to empower transport sector professionals and policy makers to address disparities in mobility, employment, and entrepreneurship between women and men within the transport sector.

Energy

[Gender Toolkit: Energy Going Beyond the Meter](#)

The toolkit is broken down into key subsectors - transmission and distribution, rural electrification, energy efficiency, and renewable energy.

[ESMAP gender and energy online toolkit for practitioners](#)

ESMAP gender and energy online toolkit for practitioners. These online resources provide basic tools to energy teams for mainstreaming gender considerations into energy sector activities. Included are sample

questionnaires and checklists, examples of terms of references (TORs) and screening guidance, which can be downloaded for use by task teams.

[Gender and Energy for Sustainable Development: A Toolkit and Resource Guide](#)

This toolkit outlines gender issues in energy projects, women's energy needs, and lessons from project experiences and contains tips for addressing gender equality issues in project planning, sample project outlines, and annotated guides to further resources.

Water

[Toolkit for Mainstreaming Gender in Water Operations](#)

The objective of this toolkit is to provide task teams with guidance to improve gender mainstreaming in project design, implementation, and evaluation.
