Legislation and Laws - General and Sector Specific

Download Chatbot

The Legal Framework Assessment provides a summary of key areas of a host country's existing laws that will need to be reviewed when a government embarks on an infrastructure project, particularly one involving the private sector.

Below are summaries and samples of legislation/ specific legislative provisions relevant to infrastructure PPP projects, together with links to legislation that has been enacted in different countries and different sectors to promote private sector involvement in infrastructure PPP projects. It is not an exhaustive set of samples. For further assistance, please contact ppp@worldbank.org.
