- [What do mothers-in-law and national PPP structures have in common?](#) by Jeff Delmon. The World Bank Group—with support from the Global Platform for Sustainable Cities and the Global Environment Fund—has developed a Municipal PPP Framework to help deliver best practice local government PPPs. It provides guidelines for municipal PPPs; 20 modules with detailed discussions of key topics; sample terms of references, requests for proposals, contracts, and concept notes; and tools to assess projects and municipalities’ legal and institutional frameworks. For those of us who really like to geek out on this topic, it also provides 100 project summaries on interesting examples of municipal PPPs, including creative ways to mobilize revenues and deliver services. The [Municipal PPP Framework](#) can be found on the Public-Private Partnership Resource Center.
