The [Guidelines to Implementing Asset Recycling Transactions](#) is intended to be a living document and will be reviewed at regular intervals. Visit the [Asset Recycling: Decision maker's notes for a practitioner's overview of Asset Recycling programs](#). To find more, check out the [Section Overview](#) and [Content Outline](#), or [Download the Full Report](#).

At the project preparation stage, the Relevant Authority should conduct the following activities:

- Recruit and engage advisors, including financial, technical, legal, and other advisors (such as, accounting and taxation, and environmental and social).
- Conduct asset due diligence, including technical, commercial, financial, environmental, social, legal and accounting, and tax due diligence.
- Develop the transaction structure, including an evaluation of ownership models and developing the risk allocation and commercial principles; and
- Conduct market sounding exercise.

Project Preparation Overview

The following represent details of the activities that the Relevant Authority should conduct during their Project Preparation for Asset Recycling:
