Appendices: Guidance for Countries in Assessing ERC Projects

Guidance for Countries in Assessing ERC Projects

Appendices

These Country System Guidelines aim to provide governments with a strategic and holistic assessment of their current legal and institutional frameworks, to help them understand how the global market perceives their country systems and where any gaps or short-comings might be found, under Workstream One of the ERP.

The Appendices under the Emission Reduction Program (ERP) include:

Appendix A - Appendix A includes a Project Profile Template. The Excel template provides toolkit for the PPP Models with a workbook including Guide, Project Profile, Inputs Assumptions, NPV Calcs and Country Input.

Appendix B - The Project Assessment Template in Appendix B includes a list of objectives and criteria to conduct a further evaluation of the priority projects identified. It is a more detailed review into the project's attributes and mechanisms relative to best practice.

Appendix C - This Appendix lays out the different models for potential public-private partnerships (or PPPs) to generate emissions reduction credits (ERCs) from deploying technologies that reduce or remove emissions.
