Cargo handling, warehousing, chillers or dry port can provide opportunities for more or new commercial activities creating additional revenue streams.

The World Bank's Municipal Public-Private Framework Case Studies includes around 100 Project Summaries with examples of commercial value capture in various sectors and from countries around the world. Below is a list of projects and project summaries which use **Logistics Facilities** as innovative sources of funding.

To find more see Municipal Public-Private Partnership Framework.

List of Projects: Logistics Facilities

- Slaughterhouse Redevelopment, Cagayan de Oro City, Philippines (*41*)
- Grain Silos Project in Punjab, India (*42*)

- Innovative Revenues for Infrastructure

The Guidelines on Innovative Revenues for Infrastructure (IRI) is intended to be a living document and will be reviewed at regular intervals. They have not been prepared with any specific transaction in mind and are meant to serve only as general guidance. It is therefore critical that the Guidelines be reviewed and adapted for specific transactions.

To find more, visit the Innovative Revenues for Infrastructure section and the Content Outline, or Download the Full Report. For feedback on the content of this section of the website or suggestions for links or materials that could be included, please contact the Public-Private Partnership Resource Center at ppp@worldbank.org.
