

Infrastructure Sharing

Municipal PPP Project Summaries

An infrastructure project may also provide an opportunity for other infrastructure, providing an additional public service and diversifying demand and sources of revenue.

Infrastructure sharing can include telecoms cables, power transmission, water aqueducts among others.

The World Bank's [Municipal Public-Private Framework Case Studies](#) includes around 100 Project Summaries with examples of commercial value capture in various sectors and from countries around the world. Below is a list of projects and project summaries which use **Infrastructure Sharing** as innovative sources of funding.

The [Guidelines on Innovative Revenues for Infrastructure \(IRI\)](#) is intended to be a living document and will be reviewed at regular intervals. They have not been prepared with any specific transaction in mind and are meant to serve only as general guidance. It is therefore critical that the Guidelines be reviewed and adapted for specific transactions.
