Pandemics and PPPs

Pandemic and PPPs

Section Overview

Covid-19 has impacted infrastructure PPP Projects around the globe, and we have seen disruptions not only to operational projects, but also to the planning, preparation and procurement of PPPs. The lessons from the pandemic are important as they show how PPPs can continue to provide resilient infrastructure for a sustainable future. Find more on this page or the links below.

Post Pandemic and PPP

Watch this space. *Pandemics and PPPs section is intended to be a living document and will be reviewed at regular intervals. Let us know what you think by taking a Quick Survey.*

The Pandemics and PPPs section is intended to address issues which may arise as PPP contracts come under stress due to the impact of a pandemic. How can unforeseen events, such as Covid-19, affect PPP Projects and how to mitigate the risks.

Preparing for disruption starts well before the contract stage, during project selection and preparation, and in this section we highlight resources developed to share the lessons learned, and approaches that have been discussed including the implications for contractual arrangements. It also presents practice notes, case studies and insights that will help outline important considerations for governments in regard to managing PPP projects for a post-pandemic recovery.
