The Asset Recycling Handbook is intended to be a living document and will be reviewed at regular intervals. Check out the section below or visit the [Section Overview](#) for more content on Asset Recycling in PPPRC. Let us know what you think by taking a [Quick Survey](#).

The following section defines the roadmap for developing and successfully implementing an asset recycling program.

The roadmap consists of six steps:

1. Define the asset recycling program (goals and objectives, and scope and scale);
2. Create the necessary setting (e.g., a public governance mechanism);
3. Create momentum (through engaging public and private sector);
4. Monetize assets / transaction process; (v) Re-invest proceeds; and
5. Monitor the program.
