- [Public-Private Partnerships for Urban Water Utilities: A Review of Experiences in Developing Countries \(2010\)](#) This report analyzes the market growth of PPPs in the developing world since 1990, and the performance of more than 65 large water PPP projects?representing more than 100 million people?for access, service quality, operational efficiency, and tariff levels.
- [Water PPPs in Africa](#), World Bank Group, WSP, July 2014.
- [Mixed Private-Public Ownership Companies “Empresa Mixta” \(2011\)](#) This review of the *empresa mixta* model in Latin America was undertaken to better understand its structure, applicability and strength in mitigating risks in the water and sanitation sector.
- [Ways To Improve Water Services by Making Utilities Accountable \(2008\)](#) This review aims to help those who work in and with water utilities, as well as organized users, regulators, and policymakers to improve the quality of water services by making service providers more accountable to the people they serve.
- [Characteristics of Well Performing Public Water Utilities - Water Supply & Sanitation Working Notes \(2006\)](#) This report presents findings on attributes of well-run public utilities and attempts to identify important factors that influence their performance. The scope is also largely oriented to utilities that serve urban communities, but with varying characteristics and service objectives.
- [Key Topics in Public Water Utility Reform \(2008\)](#) This report presents a framework of attributes of well-functioning utilities and how they have introduced key institutional changes. It aims to help water and sanitation sector practitioners choose and apply public utility reform approaches. The report concludes that structural trends are altering the landscape in which water utilities operate and that these alterations offer opportunities for change.
- [The Limits and Possibilities of Prepaid Water in Urban Africa : Lessons from the Field \(2014\)](#) by Chris Heymans, Kathy Eales and Richard Franceys, World Bank Group, Water and Sanitation Program (WSP), August 2014.
- [Water for Life: The Impact of the Privatization of Water Services on Child Mortality](#) This study finds that child mortality fell 8 percent in the areas that privatized their water services.

- [Investing in Water Infrastructure: Capital, Operations and Maintenance \(2012\)](#) This paper outlines the major challenges when financing global water infrastructure. World Bank Group
- [A Framework to Approach Shared Use of Mining-Related Infrastructure](#) (2014) by Perrine Toledano, Sophie Thomashausen, Nicolas Maennling, and Alpa Shah, Vale Columbia Center on Sustainable International Investment, Columbia University, 2014. The publication presents an economically, legally and operationally rational framework to enable shared use of mining-related infrastructure, including rail, ports, power, water, and internet and telecommunications (ICT).
