### **E. Evaluation and Comparison of Applications**

<p><b>26. Confidentiality</b></p>	<p>26.1 Information relating to the examination, evaluation, comparison, qualifications and recommendation of contract Award, shall not be disclosed to Applicants or any other persons not officially concerned with such process until publication of the Contract Award;</p> <p>26.2 Any attempt by an Applicant to influence NTA in the examination, evaluation, comparison, and post-qualification of the Applications or Contract Award decisions may result in the rejection of its Application.</p> <p>26.3 Notwithstanding ITA 26.2, from the time of Application opening to the time of Contract Award, if any Applicant wishes to contact NTA on any matter related to the Application process, it shall do so in writing.</p> <p>26.4 NTA shall treat all Applications received in relation to this RFA as confidential during the period before the Award of the contract.</p> <p>26.5 After the contract has been signed, NTA may decide to place some or all of the Applications that NTA has on file in relation to this RFA on the public record. However, prior to placing an Application on the public record, NTA will notify the Applicant that submitted that NTA plans to place the Applicant's Application on the public record. The Applicant will then have an opportunity to request that commercially sensitive or proprietary information in its Application be treated as confidential. NTA will advise the Applicant of the procedure for claiming confidentiality over any such information.</p> <p>26.6 Neither NTA nor any of its agencies, employees, representatives, advisors or consultants shall be liable in any respect whatsoever to any Applicant or any of its members or representatives for damages or harm resulting from a failure to maintain such confidentiality.</p>
<p><b>27. Clarification of Applications</b></p>	<p>27.1 To assist in the examination, evaluation, comparison of technical and subsidy Applications, NTA may, at its discretion, ask any Applicant for a clarification of its Application. Any clarification submitted by an Applicant with regard to its Application and that is not in response to a request by NTA shall not be considered. NTA's request for clarification and the response shall be in writing. No change in the subsidy or substance of the Application shall be</p>

	<p>sought, offered, or permitted, except to confirm the correction of arithmetic errors discovered by NTA in the evaluation of the Applications, in accordance with ITA 32. In case of e-submission of Application, upon notification from the employer, the Applicant shall also submit the original of documents comprising the Technical and Subsidy Application as per ITA 13.2 and ITA 13.3 for verification of submitted documents for acceptance of the e-submitted Application.</p> <p>27.2 If an Applicant does not provide clarifications of its Application by the date and time set in the Employer’s request for clarification, its Application may be rejected.</p>
<p><b>28. Deviations, Reservations, and Omissions</b></p>	<p>28.1 During the evaluation of Applications, the following definitions apply:</p> <ul style="list-style-type: none"> <li>(a) “Deviation” is a departure from the requirements specified in the RFA Document;</li> <li>(b) “Reservation” is the setting of limiting conditions or withholding from complete acceptance of the requirements specified in the RFA Document; and</li> <li>(c) “Omission” is the failure to submit part or all of the information or documentation required in the RFA Document.</li> </ul>
<p><b>29. Examination of Technical Application</b></p>	<p>29.1 The NTA shall examine the Technical Application to confirm that all documents and technical documentation requested in ITB 13.2 have been provided, and to determine the completeness of each document submitted.</p> <p>29.2 The Employer shall confirm that the following documents and information have been provided in the Technical Bid. If any of these documents or information is missing, the offer shall be rejected.</p> <ul style="list-style-type: none"> <li>(a) Technical Application Form;</li> <li>(b) written confirmation of authorization to commit the Applicants;</li> <li>(c) Bid Security; and</li> <li>(d) Technical Proposal in accordance with ITA 13.2</li> </ul>
<p><b>30. Determination of Responsiveness of Technical Application</b></p>	<p>30.1 NTA’s determination of the responsiveness of an Application is to be based on the contents of the Application itself, as defined in ITA 13.2.</p> <p>30.2 A substantially responsive Technical Application is one that meets the requirements of the RFA Document without material deviation, reservation, or omission. A material deviation, reservation, or omission is one that,</p> <ul style="list-style-type: none"> <li>(a) if accepted, would:</li> </ul>

	<p>(i) affect in any substantial way the scope, quality, or performance of the Services specified in Section IV, Terms of Reference; or</p> <p>(ii) Limits in any substantial way, inconsistent with the RFA Document, NTA’s rights or the Applicant’s obligations under the proposed Contract; or</p> <p>(b) If rectified, would unfairly affect the competitive position of other Applicants presenting substantially responsive Applications.</p> <p>30.3 NTA shall examine the technical aspects of the Application in particular, to confirm that all requirements of Section IV, Terms of Reference and Section X Annex 5 Technical Specification have been met without any material deviation or reservation or omission.</p> <p>30.4 If an Application is not substantially responsive to the requirements of the RFA, it shall be rejected by the NTA and may not subsequently be made responsive by correction of the material deviation, reservation, or omission.</p> <p>30.5 In case of e-submission bids, the NTA evaluates the Application on the basis of the information in the electronically submitted bid files. If the Applicant cannot substantiate or provide evidence to establish the information provided in e-submitted Application/bid through documents/ clarifications as per ITB Clause 27.1, the Application shall not be considered for further evaluation.</p> <p>30.6 In Case, a corruption case is being filed to Court against the Natural Person or Board of Director of the firm/institution /company or any partner of JV, such Natural Person or Board of Director of the firm/institution /company or any partner of JV such Applicant’s application shall be excluded from the evaluation, if NTA receives instruction from Government of Nepal.</p> <p>30.7 Except in case of e-submission, the subsidy Application of the Applicant, which is evaluated as substantially non-responsive in technical Application, shall be returned to the respective Applicants.</p>
<p><b>31. Non-material Non-conformities</b></p>	<p>31.1 NTA may regard an Application as responsive even if it contains minor deviations that do not materially alter or depart from the characteristics, terms, conditions and other requirement set forth in the RFA Document or if it contains errors or oversights that are capable of being corrected without affecting the substance of the Application.</p> <p>31.2 Provided that an Technical Application is substantially responsive, NTA may request that the Applicant submit the necessary information or documentation, within a reasonable period of time, to rectify non-material non-conformities or omissions in the Technical Application related to documentation requirements.</p>

	<p>Requesting information or documentation on such non-conformities shall not be related to any aspect of subsidy. Failure of the Applicant to comply with the request may result in the rejection of its Application.</p>
<p><b>32. Qualification of the Applicant</b></p>	<p>32.1 The NTA shall determine to its satisfaction during the evaluation of Technical Applications whether Applicants meet the qualifying criteria specified in Section III (Evaluation and Qualification Criteria).</p> <p>32.2 The determination shall be based upon an examination of the documentary evidence of the Applicant’s qualifications submitted by the Applicant, pursuant to ITB 17.1.</p> <p>32.3 An affirmative determination shall be a prerequisite for the opening and evaluation of a Applicant’s Subsidy Application. A negative determination shall result into the disqualification of the Application, in which event the Employer shall return the unopened subsidy Application to the Applicant.</p>
<p><b>33. Correction of Arithmetical Errors</b></p>	<p>33.1 Provided that the Application is substantially responsive, NTA shall correct arithmetical errors on the following basis:</p> <ul style="list-style-type: none"> <li>(a) if there is a discrepancy between the unit price and the total price that is obtained by multiplying the unit price and quantity, the unit price shall prevail and the total price shall be corrected, unless in the opinion of NTA there is an obvious misplacement of the decimal point in the unit price, in which case the total price as quoted shall govern and the unit price shall be corrected;</li> <li>(b) if there is an error in a total corresponding to the addition or subtraction of subtotals, the subtotals shall prevail and the total shall be corrected; and</li> <li>(c) if there is a discrepancy between words and figures, the amount in words shall prevail, unless the amount expressed in words is related to an arithmetic error, in which case the amount in figures shall prevail subject to (a) and (b) above.</li> </ul> <p>33.2 If the Applicant that submitted the lowest evaluated Application does not accept the correction of errors, its Application shall be rejected and its bid security shall be forfeited.</p>
<p><b>34. Evaluation of Applications</b></p>	<p>34.1 Evaluation will be in different stages, preliminary, technical and commercial. Technical evaluation is only carried out for all substantially responsive applicants under preliminary examination. Technically responsive Applicants are further considered for commercial evaluation.</p> <p>34.2 NTA shall evaluate and compare each Application that has been determined, up to this stage of the evaluation, to be substantially responsive.</p> <p>34.3 To evaluate an Application, NTA shall only use all the criteria and methodologies defined in ITA17 qualification of Applicants. No</p>

	other criteria or methodology shall be permitted.
<b>35. Post-qualification of the Applicant</b>	<p>35.1 NTA shall determine to its satisfaction whether the Applicant that is selected as having submitted the lowest evaluated and substantially responsive Application is qualified to perform the Contract satisfactorily.</p> <p>35.2 The determination shall be based upon an examination of the documentary evidence of the Applicant's qualifications submitted by the Applicant, pursuant to ITA 17.</p> <p>35.3 An affirmative determination shall be a prerequisite for Award of the Contract and issuance of Authorization to the Applicant. A negative determination shall result in disqualification of the Application, in which event NTA shall proceed to the next lowest evaluated Application to make a similar determination of that Applicant's capabilities to perform the contract satisfactorily.</p>
<b>36. NTA's Right to Accept Any Application, and to Reject Any or All Applications</b>	<p>36.1 NTA reserves the right to accept or reject any Application, and to annul the Application process and reject all Applications at any time prior to Contract Award, and/or decide not to select any Licensee for Award of the Subsidy without thereby incurring any liability to the Applicants. The termination notice will be communicated to all the Applicants. If the Applicant seeks further clarification from NTA within 30 days of such notice, NTA shall communicate further clarification behind such termination.</p> <p>36.2 For greater clarity, NTA is not legally obligated to issue the contract. It may terminate the RFA process at any time before the contract is actually issued.</p>

## F. Award of Contract

<b>37. Award Criteria</b>	<p>37.1 NTA shall select to award the Contract for providing subsidy to the Applicant whose offer has been determined to be the lowest subsidy amount to fulfil the network roll-out requirements and is substantially responsive to the RFA document, provided further that the Applicant is determined to be qualified to perform the Contract satisfactorily.</p> <p>37.2 The maximum subsidy amount shall not exceed the amount mentioned in this RFA.</p>
<b>38. Notification of Intention to Award</b>	<p>38.1 NTA shall notify the concerned Applicant/s whose Application has been selected in accordance with ITA 35.1 within seven days of the selection of the Application, in writing that NTA has intention to accept his/her Application to grant the contract and shall Inform via the Letter of Intention. The information of name, address and amount of selected Applicant shall be given to all other Applicants who submitted the Application.</p> <p>38.2 If no Applicant submits an Application pursuant to ITA39.1 within a period of seven days of providing the notice under ITA36.1, NTA shall accept the Application selected in accordance with ITA 35.1 prior to the expiry of Application validity period, and notification of Award shall be communicated to the Applicant to furnish the</p>

	performance security and sign the contract.
<b>39. Performance Security</b>	<p>39.1 Within Fifteen (15) days of the receipt of notification of Award from NTA, the successful Applicant/s shall furnish the Performance Security of 5% of the Subsidy amount from a commercial bank in Nepal in accordance with the SCC, using for that purpose the Performance Security Form included in Section VII, Contract Forms, or another form acceptable to the NTA.</p> <p>39.2 Failure of the successful Applicant to submit the above-mentioned Performance Security or sign the Contract Agreement shall constitute sufficient grounds for the annulment of the Award, disqualify the SLO for providing subsidy and forfeiture of the Bid Security. In that event NTA may Award the Contract to another Applicant that has proposed the next lowest subsidy and whose offer is substantially responsive and is determined by NTA to be qualified to perform the Contract satisfactorily.</p>
<b>40. Signing of Contract and issuance of Authorization</b>	<p>40.1 The successful Applicant/s shall sign the contract in the form included in section VII after the submission of Performance Security in accordance with ITA 37; and</p> <p>40.2 NTA shall issue Authorization to such Applicant/s as and when it deems necessary to receive the authorization for Broadband connectivity Services to local customers at least at RURAL MUNICIPALITY AND WARD Offices, Health Centers and Public Educational institution (High school and above).</p> <p>40.3 NTA in its discretion may modify the terms of the Authorization as set out in this RFA to reflect the plans or commitments made by the SLO, to the extent that those plans or commitments meet or exceed the requirements set out in the attached draft Authorization and provide additional benefits to the general public.</p> <p>40.4 At the same time, NTA shall also notify all other Applicants of the results of the RFA, and shall publish in a daily newspaper or NTA website the results identifying the Application and package numbers and the following information: (i) name of each Applicant who submitted an Application; (ii) subsidy amount as read out at Application Opening; (iii) name of Applicants whose Applications were rejected and the reasons for their rejection; and (iv) name of the winning Applicant, and the subsidy requested.</p> <p>40.5 NTA shall promptly respond in writing to any unsuccessful Applicant who, within thirty days from the date of issuance of notification of Award in accordance with ITA 36.2, requests in writing the grounds on which its Application was not selected.</p>
<b>41. Complaint and Review</b>	<p>41.1 If an Applicant dissatisfied with the Procurement proceedings or the decision made by NTA in the intention to Award the Contract, it may file an Application to the Chairman of the NTA within seven (7) days of having, receipt of such notice or decision making, for review of the proceedings stating the factual and legal grounds.</p>

## Section IV. Terms of Reference

### 1. Purpose of the Service:

This RFA is issued by the Nepal Telecommunications Authority (NTA) pursuant to the *Telecommunications Act, 2053(1997)* (the “Act”) and the policy of the Government of Nepal (GoN) to expedite the development of Internet/data services in Nepal.

In particular, this RFA is aimed at increasing broadband access throughout 5 Districts (Nawalpur, Kapilbastu, NAWALPARASI, Rupandehi and Chitwan) of Nepal. The purpose of this Request for Applications is to invite Application to build broadband network and provide Internet/data access connectivity services in 5 Districts in the next 12 months and provide broadband connectivity services by providing subsidy to the existing NTA ISP licensees in order to provide connectivity for broadband services to all Municipality, Rural municipality and warda offices, Health centers, and public academic institutions (high school and above).

All Applicants are advised to study current MIS report of NTA at [www.nta.gov.np](http://www.nta.gov.np) to explore the present status of Nepalese ICT markets.

### 2. Breakdown of the Assignment:

This RFA contains 5 Districts (Nawalpur, Kapilbastu, NAWALPARASI, Rupandehi and Chitwan), as listed in this Terms of Reference. All Municipality, Rural municipality and warda offices, Health centers, and public academic institutions (high school and above) listed below shall be provisioned for broadband connectivity. Details are listed in Annex 4.

<b>Districts</b>	1. Chitwan District
	2. Nawalpur District
	3. NAWALPARASI District
	4. Kapilbastu District
	5. Rupandehi Districts

### 3. Sources of Funds:

NTA is collecting 2% of the Gross Adjusted Revenue as a Rural Telecom Development Fund (RTDF) every year from Telecom operators as per the Telecommunication Act 2053 B.S. This fund is collected specifically for the development of Rural Telecommunications, and presently stands over Rs. 17 billion. NTA plans to utilise this fund to provide financial subsidy to its ISP licensee(s) for commissioning of this project which will be instrumental in establishing broadband connectivity network for the development of internet/data services in 5 Districts of Nepal.

Note: Details of Ward, Schools and Health Centre are obtained from Ministry of Local Development, Ministry of Education, Ministry of Education and Central Bureau of Statistics. Hence the Applicants are required to contact local district offices to ascertain and find out the missing Data. If some of the sites or some area have already connected, that sites or area will be excluded and subsidy amount will be varied on the basis of quantity of particulars, rate and percentage of quoted subsidy. The successful applicant will have to provide services in these locations also on own their own costs.

Estimated Subsidy Cost: **Rs.928,000,000.00 (NPR Nine Hundred Twenty Eight Million Only)**

As a prelude to the initial planning for establishing a broadband connectivity Network in the 5 Districts of the country. It was conducted a map study, which has been termed Technical Study throughout this RFA. Therefore, the Applicants are advised to carry out their own detailed field survey(s) in order to verify or otherwise amend the route length and other assumptions of the Technical Study, so that their Applications could reflect the actual site conditions. The name of districts, Municipality, Rural Municipality and Ward Offices Health posts/centers, Public Academic Institutions (High School, Higher Secondary Schools, Colleges, Universities) of network as found out from the study is shown in Annex-I.

SLO shall be required to build broadband connectivity network using mainly optical fiber cable (Underground, Direct buried and aerial cables as appropriate. Transmission media and Equipment used at target routes and sites shall meet technical specifications (minimum requirements) as indicated Annex-I and Annex-2. Also, the capacity of broadband connectivity equipment as indicated by the Technical Study for each sites shall be the minimum capacity that the Applicant needs to provide. However, all the stations/sites shall be connected with minimum capacity of 10Mbps (extendible at least upto 1 GB/s on demand)/Terminal broadband capacity. The SLO may increase the capacity as per their requirements at any time.

Despite the attempts of the government and private operators, it has not been possible to connect all district headquarters (DHQs) by backhaul links either by optical or microwaves yet. However, all 5 Districts headquarters are well connected by high capacity backhaul links either by microwave or optical fiber or both and all district

headquarters are connected with exchanges. Applicants are requested to survey and opt the cost effective solutions to connect each stations either by wireless routers or optical LAN or microwave backhaul or Point to Multipoint (PMP) or satellite radio links. Applicants are encouraged to use existing ADSL or FTTH or Optical routers/switches of other Telco's/ ISP's network for connecting to nearby broadband connecting stations. However, Applicants are solely responsible for arrangements to utilize other's network infrastructures.

The maximum amount of subsidy assumes a existing transmission connectivity up to the each district headquarters and one and half hops (in an average) are required for each stations to connect terminals. Each terminal site may need one wireless wifi router, feeder cable, atleast 50mm dia GI pipe and one directional antenna. Financial evaluation shall only compare the actual amounts of subsidy sought by the applicants. The subsidy amount also includes the operation cost for two years (i.e the free of cost to the end users for two years only).

The RFA also encourages Applicants to make optimum use of all existing infrastructure including OFNs commissioned by one or the other Operator/s or other entities including Nepal Telecom, NCELL, Smart Telecom, UTL, STM Sanchar, Subisu, Worldlink, Merantile, and Electricity Authority (NEA), to the extent that it allows the usage of such section(s) of the existing facilities that do not presently come up to levels as required by the Minimum Quality Standards (MQS) set by NTA, to become part of the SLO's network, but the responsibility falls upon the SLO to upgrade such section(s) within stated time frame of the Authorization. SLO proposing to make use of existing infrastructure would be required to produce evidence of understanding reached with the owner(s) of existing network, by submitting copies of the Memorandums of Understanding (MoUs) reached by the Applicant with the concerned Operator(s). However, SLO shall be solely responsible to provide the broadband connectivity network and services stated in RFA.

It is the intention of NTA to act carry out its function, as designated by the Act, of making necessary arrangement to avail basic internet/data Services and facilities in all rural areas throughout the country, by increasing access to broadband services in Nepal, particularly in rural and remote areas of 5 Districts (Nawalpur, Kapilbastu, NAWALPARASI, Rupandehi and Chitwan).

This RFA will be governed by the Public Procurement Act 2063 B.S, Telecommunication Act 2053 B.S., NTA's Financial Administration bylaw 2067 B.S. and RTDF Disbursement (working procedure) by law 2064 B.S. and relevant other laws.

## **5. Rights and Obligations of Selected Licensed Operator**

The authorization will be issued on a non-exclusive basis. This authorization will not change the existing rights and obligations of SLO except providing additional rights and obligations as provided by this RFA. However, NTA will try and avoid duplication of infrastructure in areas where it has already been established through the use of RTDF fund.

## **6. Network Roll-out Requirements**

The SLO shall build broadband connectivity to all sites including Rural Municipality and Ward Offices Health posts/centers and public academic institutions of 5 Districts in accordance with the following schedules:

Installation of services must commence within nine months of the effective date of the Authorization. The broadband connectivity network must be installed in all stations listed in Annex-I in accordance with the following schedule:

- a) 50% of each Package: within 9 months from the date of signing of the contract; and
- b) Remaining 50% of each Package: within 12 months from the date of signing of the contract.
- c) Force Majeure: if an independent technical consultant appointed by the NTA, provides written confirmation to NTA that one or more events of force majeure prevented the installation, activation or operation of some of the broadband connectivity networks required under this TOR, then the obligations shall be modified accordingly; provided, however, that the responsibility of the ISP for the installation, activation and operation of the broadband connectivity network shall remain intact during the tenure of the contract, on improvement of the conditions giving rise to the event of force majeure.

**Failure to Meet Roll-out Requirements** – Failure to meet the network roll-out requirements may result in the imposition of one or more of the following penalties:

- i) loss of eligibility for the Subsidy;
- ii) forfeiture of the Performance Security pursuant to GCC 17;
- iii) termination of the contract;
- iv) the imposition of fines for breach of ISP licence conditions pursuant to the Act; and
- v) the forfeiture of all the equipment, land and other assets related to this service.

**Force Majeure** – The penalties specified above shall not apply if the roll-out delay results solely from an event of *force majeure*.

### **Rollout Obligation**

The SLO shall build broadband connectivity to all sites including Rural Municipality and Ward Offices Health posts/centers, and public academic institutions and shall provide on demand broadband connectivity to the consumer of 5 Districts (Nawalpur, Kapilbastu, NAWALPARASI, Rupandehi and Chitwan).

These 5 Districts have difficult geography, so SLO is free to choose appropriate technology but based on the geography within the requirement defined below:

S.N.	Name of District	Optical
1	Chitwan	100%
2	Nawalpur	
3	NAWALPARASI	
4	Rupandehi	
5	Kapilbastu	

## **7. Account Separation and Service Obligations**

- 7.1 **Account Separation:** To facilitate the NTA to make interventions as and when necessary, SLO shall keep accounts pertaining to all transactions accruing pursuant to the Project in a manner separate from other activities carried out by the ISP Licensee(s). Such account separation should clearly demonstrate the basis of charges levied by the SLO to its own affiliates, and also to other clients. Maintaining of accounts in this manner by the SLO can be helpful to the NTA to judge if any changes in tariffs would be desirable in the interest of the consumers and the Licensee(s) alike.
- 7.2 **Public Information:** SLO shall, within 3 months of completion of the network, bring out a publication clearly identifying the network established by them under the Project, and detailing the services offered thereof. Copy of such publication shall be submitted to the NTA, and also made public through distribution of hard copies, and posting at the Websites of the Licensee, and that of the NTA. SLO shall publish details of such broadband connectivity network & service at her disposal and offered by her, and update such information every three months. Licensee(s) shall also clearly enumerate conditions and procedures if any, for anyone to obtain access to its network & services. SLO shall ensure that all customers are connected with 1 Mbps internet speed in each terminal and publish the guaranteed speed on each terminal.
- 7.3 **Service Obligations:** Upon completion of the broadband access connectivity, the SLO shall invite each customer to handover the terminal and its password and train them to operate the CPE (computer, smartphone etc.). Once the customer purchases/arranges her CPE then Licensee(s) shall provide the broadband connectivity without any discrimination.

SLO shall make its broadband connectivity network & services available to all the potential requesting clients so as to have immediate access after ordering. SLO shall not be allowed to refuse to provide such access to valid clients.

In case the SLO is unable to provide network or services as per the request, and intimates the reasons thereof to the requesting potential valid client, SLO shall, maintain record of each such case mentioning therein the reasons thereof and such records shall be maintained for all such cases for a period of two years beginning from the date of such intimation.

To ensure compliance of the Obligations of the SLO, the NTA shall appoint Inspector(s) to inspect any of the records maintained, especially with regards to the Licensee's inability to provide network or services, and submit to NTA a report in respect of such inspection.

## **8. Minimum Quality Standards**

The minimum quality standards shall be as follows:

### **8.1 Optical Fiber Cable Specifications**

Different attributes for the Fiber like mode field diameter, cladding diameter, Core concentricity error, non-circularity, Cut-off wavelength, macro-bending loss, material properties of the Fiber, refractive index profile, chromatic dispersion coefficient attenuation coefficient, polarization mode dispersion, are specified as a minimum essential parameters for Fiber manufacture of a single mode optical Fiber cable in the ITU-T Recommendation G.652, ITU-TL1700 & L. Supplement 22 (Pub. 2016) and Annex-2 Technical Specification of this RFA. The successful Applicant shall install minimum of 6 core fiber cable.

### **8.2 Field Proveness of Fiber and Equipment:**

NTA assumes that SLO shall construct OFN (wherever possible) with components and workmanship at international quality as specified in ITU/IEEE and Annex-2 Technical Specifications.

### **8.3 Construction Standard**

The construction requirements may differ on the geographical terrain conditions of the routes. Ecologically, the country consists of three Provinces viz. the Plain (Tarai), the Hill and the Mountain. The nature of soil condition is different; hence different standards shall be applied as per Section X - Annex-2 Technical Specifications.

## **9. Termination Standard**

### **9.1 System structure and functions**

SLO shall follow minimum technical specifications specified in Annex-2 for Ducted Fiber cable, Aerial Cable, ADSS, OPGW, Wireless connectivity (WiFi/ 3G to 4G/WiMax/ IPCDMA/VSAT), Poles/Tower/Mast, System Availability etc.

### **9.2 In addition to Section X, Annex-2, the SLO shall meet the following standards:**

#### **a) Operation and Maintenance**

Operation and maintenance of the network shall be controlled and performed by an Operating System. It is required that broadband connectivity access network element is managed according to Telecommunication Managing Network (TMN) and internationally practiced rules.

#### **b) Services and Penalties**

The minimum service quality criteria shall be as follows:

**i) Service Availability** - The SLO shall ensure that the broadband connectivity network is available 24hrs a day throughout a year to its customers.

**ii) Service Obligation** - The SLO shall ensure that the services are made available through the installation, activation and operation of broadband connectivity access

network lines through shared or dedicated leased optical cable to its customers that shall be retained and continued throughout the period of the authorization validity.

**iii) Failure to meet service quality and availability obligations** – The failures of the SLO to meet the obligations specified in this section shall result in the imposition of penalties for breach of contract and Authorization conditions and other applicable penalties stipulated in the Act. However, the penalties shall not apply if the failure results solely from an event of force majeure.

## **10. Scope of Service**

### **10.1 Mandatory Service:**

The SLO shall provide its broadband access connectivity network to all customers as listed in Annex-I.

### **10.2 Complaint Centre:**

The SLO shall establish a Complaint Centre for the users. SLO needs to ensure that all calls made to its Complaint Centre are free of charge. The SLO shall act as per the request of customers.

### **10.3 Right of Way:**

The authorisation to build the broadband connectivity Network includes the authorisation to construct and use any required facilities for the provision of network access at the SLO's own cost, and under its own responsibility. NTA will issue recommendation letters to this effect to the concerned Government Department, Institution, or individual who owns the land, building, etc.

## **11. Regulation of Other Internet Service Providers**

The network access to the other internet service providers shall be regulated by NTA to ensure that existing internet service providers do not abuse their possible dominant position. In particular, NTA will regulate other internet service providers to ensure that they do not unfairly discriminate against the SLO and do not grant anti-competitive preferences or cross-subsidise its own internet/data network leasing charge with other infrastructure.

## **12. Interconnection**

Interconnection between the SLO's network and other licensees' ICT/internet/data networks, including that of incumbent, is governed in general terms by section 31 of the Act and the Interconnections Guideline 2065 (2008) in force (see Annex 4 to this RFA).

The SLO's internet/data network must be technically compatible with other ISPs' network so as to provide seamless interconnection. For interconnection purposes, technical compatibility includes, but is not limited to, compatible numbering, signalling, routing and synchronization.

In its Application, the Applicant shall provide the bandwidth of access connectivity as per the requirements of this RFA at the beginning and shall also provide its best estimate

of the number and size of the interconnection bandwidth and the point(s) of interconnection it will require during the next two (2) years of operation so that the other ISPs can plan in advance and arrange for suitable network provisioning, and the SLO shall continue to provide other ISPs with such information as its network plans evolve.

The SLO is required to publish "Reference Interconnection Offer" as mandated by the Interconnections Guidelines.

### **13. Regulation of SLO's Tariffs**

The tariff rates charged by the SLO to its customers for use of the Broadband Network will be subject to regulation by the NTA in accordance with Section 42 of the Telecommunication Act and Broadband act, as is the case with tariffs of other ISPs.

SLO have to submit the details of the tariff structure to the NTA as and when requested, including cost breakdown. But Tariff should not higher than the average tariff available in Kathmandu Valley.

All user charges shall be in accordance with approved rates under the guideline of NTA.

### **14. Authority to Construct and Use Facilities**

Subject to the other terms of the contract and Authorization, the SLO may construct all ICT facilities required to provide the broadband access connectivity services. The SLO may also use the facilities of licensed ISPs/telecommunications service providers or the facilities of any other Persons that are located in Nepal, for the purposes of providing the services. Use of such facilities may be obtained from the other operators or Persons by agreement with them.

The Qualified Applicant must submit the locations of its Backhaul/Access Points/nodes to be established. Each RURAL MUNICIPALITY/MDC shall have at least one access/node points.

Unless otherwise approved by NTA, all ICT facilities and equipment installed by the SLO in its ICT System shall be new when first installed and shall, so far as reasonably practicable, be state of the art technology that complies with internationally recognized standards. Interoperability and upgradability shall be ensured by SLO.

The SLO shall be free to procure the goods, works and services required for its internet/data network services using its own procurement procedures conforming to the existing laws of Nepal.

#### **(i) Access to Public and Private Lands**

The SLO shall have rights of access to public and private lands, and the rights of inspection and entry set out in Sections 36 to 38 of the Telecommunication Act 2053 B.S.

(ii) **Co-operation among ISP Licensees**

The SLO shall communicate and co-operate with other ISP licensees with a view to provide compatible and consistent types and quality of service to internet/data users across Nepal.

(iii) **Transfer of Control/Ownership of Authorization**

**Transfer of Licence/Authorization** - The SLO's ISP Licence/Authorization shall not be sold or transferred except with the approval of the NTA in accordance with the provisions of Section 27 of the Act.

**Change of Control** - During the first 5(Five) years after issuance of the Authorization, prior written consent of the NTA will be required for any change in the ultimate beneficial ownership of any shares of the SLO or for any change of Control of the Authorization.

Except in extraordinary circumstances, the NTA does not intend to consent to any change in Control of Authorization in the first five years of SLO's operations.

Prior written consent of the NTA will not be required in respect of changes in share holdings resulting from trades made through a stock exchange or changes that affect less than 25% (twenty five percent) of the shares of the SLO, provided that any such changes do not result in a change of Control of the Authorization and provided further that any such changes do not result in a change in the ownership interest of any member.

**Compliance with Law**-The SLO shall be required to comply with all the laws of Nepal applicable to its Services business at all times, including the Act, the Rules, all regulations, by-laws, orders, directives and guidelines issued under the Act (including any other instruments which may be made by the NTA) and the payment of all applicable taxes.

**15. Terms of Authorization**

In accordance with the provisions of Section 25 of the Act, the initial term of the Authorization will be 5 (five) years, commencing from the effective date of the Authorization. Not less than 6 (six) months before the expiry of the relevant term, the SLO may apply for an additional term of 5 (five) years, and the NTA shall grant the Authorization renewals, provided that there are no material breaches of the Authorization, until a full licence term of 25 (twenty-five) years is reached and the SLO has renewed its original license. However, the validity of authorization automatically ceases to exist in case the license of the SLO is terminated by NTA.

In case the SLO cannot fulfil the requirements mentioned in the contract/Authorization, NTA may decide to terminate the contract/authorization. In such case, the ownership of the broadband connectivity infrastructure laid by the SLO will automatically come under NTA.

**16. Fees Payable by the SLO**

**Annual Royalty to be paid to GoN-** The SLO shall pay a royalty fee of 4% (four percent) of the SLO's adjusted gross annual revenues in each fiscal year. This Royalty is due 3 (three) months following the end of each fiscal year.

**Rural Telecommunications Development Fund ("RTDF")** - The SLO shall contribute 2% (two percent) of its adjusted gross annual revenues, to the fund established by the NTA pursuant to subsection 30(4) of the Act. This payment is due 3 (three) months following the end of each fiscal year.

**17. Financial Incentives**

The following incentives will be provided to the ISP Licensee, in order to promote GoN's policy of providing ICT access in the Service Area:

- (i) For each packages, payment of one time financial Subsidy spread over different tranches.

**18. Appointment of independent technical consultant:**

NTA shall appoint an independent technical consultant in a timely manner for verifying, and supervising the broadband connectivity network as per the quality stated in Minimum Quality Standards (Annex-2), network roll-out requirement and subsequently recommending to NTA for subsidy payment as per SCC. In case, NTA fails to appoint an independent technical consultant in time, it will use it's own or hire temporary independent local consultant directly for short period of time.

**19. Letter of Appreciation**

Letter of appreciation will be given to the ISP Licensee if the work is completed prior to the time mentioned in the contract.

20. **Schedule**

The timetable for the RFA process is set out below.

<b>Event</b>	<b>Days Start From</b>	<b>Calendar Date</b>

**2. Address:**

3. Type of service to be provided:

Building broadband network and provide internet access connectivity services in the 5 Districts and stations/sites covered/stated by TOR and Annex-I.

4. Area of operation of the service:

As listed in the TOR and Annex-I included in this RFA/Authorization.

5. Authorization No:

**6. Validity Period of the Authorization:-**

The initial term of the Authorization will be for 5 (five) years, commencing from the effective date of the authorization. This Authorization shall be continued as a part of the existing license of the SLOs. The Authorization shall be an integral part of the existing license of the SLO and shall be valid throughout validity period of the existing license of the SLO.

**7. Information and Services**

**a. Accounting:**

The provision of Accounting shall be governed by the provision of existing license of SLO

**b. Other Records and Provision of Information to the NTA:**

The provision of Other Records and Provision of Information to the NTA shall be governed by the provision of existing license of SLO

**c. National Emergencies:**

The provision of National Emergency shall be governed by the provision of existing license of SLO.

**d. Compliance with Law:**

The SLO shall be required to comply with all the prevailing laws of Nepal applicable to its Telephone Services business at all times, including the Act, the Rules, all regulations, by-laws, orders, directives and guidelines issued under the Act (including any other instruments which may be made by the NTA) and the payment of all applicable taxes and dues.

**e. Force Majeure Events:**

The SLO shall be excused from performance of the service obligations set out in this Authorization to the extent and for the period of time that such performance is prevented or materially affected by a Force Majeure event.

## **8. Service Obligations and Roll-out Schedule:**

Design, Survey, Installation commission and Operation and Maintenance of Broadband Connectivity Network according to this RFA and provide broadband connectivity Services in all RURAL MUNICIPALITY offices, Health Centers and Government Academic Institutions of the 5 Districts and stations/sites covered by TOR and Annex-I. The Selected Licensed (ISP) Operator shall be required to install, activate and operate Broadband connectivity network in the stations/sites of the 5 Districts as listed in TOR included in this contract/Authorization.

Installation of services must commence within 1 month of the effective date of the Authorization. The broadband connectivity network must be installed in the stations/sites of each district listed in TOR and Annex-I included in this RFA, in accordance with the following schedule:

- a. 50% of all the stations/sites and Network of assigned districts as specified technology listed in TOR and Annex-I of this RFA under each package to this Authorization within 9 months from the effective date of the Authorization, as certified by an independent technical consultant appointed by NTA; and
- b. 100% of all of the stations/sites and Network of assigned districts as specified technology listed in TOR and Annex-I under the assigned package included in this RFA within 12 months from the date of signing of the contract and will be certified by an independent technical consultant appointed by the NTA,
- c. Because of the difficult terrain, it is possible that a potential Applicant may not consider it cost effective to use particular technology to some of the concerned stations/sites at that point of time. SLO may be given the option of completing such portion of the Project at a predefined later point of time with payment of financial subsidy for such section/s also delayed till such date. Along such section/s of the stations/sites, Licensee(s) shall be obliged to take the responsibility of offering service through other available means, for which SLO shall have entered into understanding, evidenced through appropriate MoU(s). However, a maximum of 20% of the station/sites entrusted to any one Licensee may be authorized to be operated in the manner described above.
- d. If the independent technical consultant appointed by NTA, provides written confirmation to NTA that one or more events of force majeure prevented the installation, activation or operation of some of the broadband connectivity networks required under this clause, then the obligations under this clause shall be modified accordingly; provided, however, that the responsibility of the operator for the installation, activation and operation of the broadband connectivity lines shall remain intact during the tenure of the Authorization, on improvement of the conditions giving rise to the event of force majeure.

## **9. Failure to Meet Roll-out Requirements**

Failure to meet the broadband connectivity network roll-out requirements may result in the imposition of one or more of the following penalties:

- (a) loss of eligibility for the Subsidy;
- (b) forfeiture of the Performance Security;
- (c) termination of the Authorization;
- (d) the imposition of fines for breach of licence conditions pursuant to the Act; and
- (e) the forfeiture of all the equipment, land and other assets related to this service.

**10. Exclusivity:**

The authorization will be granted on a non-exclusive basis. However, this Authorization shall not affect the provisions of the existing license of the SLO.

**11. Scope of Service:**

**Optional Services:** –The Authorization will provide the SLO to provide the following services in the stations/sites of the 5 Districts listed in TOR and Annex-I included in this RFA, even during the roll out period.

- a) The Authorisation to build, operate and maintain broadband connectivity network service includes the Authorisation to construct and to use any required facilities for the provision of such services at the SLO’s own cost, and under its own responsibility.
- b) The SLO is entitled to provide 1 Mbps connectivity to its customers
- c) Notwithstanding this section above, the SLO may provide more bandwidth and other services under their license boundary than that mentioned in the Authorization without any subsidy at any time.

**12. Rate Regulation:**

The tariff rates charged by the SLO to its customers for use of the broadband connectivity or lease connectivity service will be subject to regulation by the NTA in accordance with subsection 13(i) of the Act except the two years period of free service obligation. But Tariff should not greater than average tariff available in Kathmandu Valley. New Tarriff guidelines for RTDF subsidised broadband connectivity services shall be developed and provided by NTA. A clear and concise description of all rates must be prominently made known to its customers.

**13. Interconnection:**

- a) Interconnection between the SLO’s network and other licensed telecommunications/ISP networks in Nepal, is governed in general terms by section 31 of the Act, the Guidelines for Interconnection prescribed by NTA and its successors,
- b) The SLO's network must be technically compatible with other operator's network so as to provide seamless interconnection. For interconnection purposes, technical compatibility includes, but is not limited to, compatible numbering, signalling, routing and synchronization.

- c) The SLO must provide a description of the planned network, including a description of the technology to be employed and the roll-out/service coverage plans for the (to be inserted)..... months of operation. The SLO should specify applicable technical standards, proposed interconnection points and network capacity.

**14. Authority to Construct and Use Facilities:**

- a) Subject to the other terms of the Authorization, the SLO may construct all ICT facilities required to provide the broadband connectivity service. The SLO may also use the facilities of licensed internet service providers or telecommunications service providers or the facilities of any other Persons that are located in Nepal, for the purposes of providing the authorized internet/data services. Use of such facilities may be obtained from the other operators or Persons by agreement with them.
- b) The SLO may adopt wireless routers/switches, access points, wireless backhaul system, Point to Multipoint, Microwave Links, any other transmission links, ADSL, FTTH, WDM fiber/copper cable approach for building the broadband connectivity network as appropriate depending on the topography considering cost and feasibility of such construction as well.
- c) Unless otherwise approved by NTA, all broadband connectivity facilities and equipment installed by the SLO in its ICT System shall be new when first installed and shall be, so far as reasonably practicable, state of the art technology that complies with internationally recognized standards.
- d) The SLO shall be free to procure the goods, works and services required for its Internet/Data Services network using its own procurement procedures.

**15. Access to Public and Private Lands:**

The SLO shall have rights of access to public and private lands, and the rights of inspection and entry set out in Sections 36 to 38 of the Act.

**16. Co-operation among Licensees:**

The SLO shall communicate and co-operate with other licensees with a view to provide compatible and consistent types and quality of service to ICT users across Nepal.
