

The Second Global Roundtable on Infrastructure Governance and Tools

BUILDING THE RIGHT INFRASTRUCTURE FOR TOMORROW

REFORM INFRASTRUCTURE GOVERNANCE AND BOOST INVESTMENT

The main impediment to strong infrastructure investment is not related to a lack of financing, but a lack of good governance. The topic of infrastructure governance is thus increasingly taking center stage in Africa among policy makers and practitioners.

This event follows directly from the 2015 Addis Ababa Action Agenda and the recommendations of the 2017 Global Infrastructure Forum which called on the Multilateral Development Banks and partners to focus on: strengthening investment capacity, policy and governance frameworks of governments; enhancing of private sector participation and financing; boosting the catalytic role of Multilateral Development Banks in bridging the public and private sectors. The new World Bank initiative to crowd in commercial financing and sustainable private sector solutions, Maximizing Financing for Development, is a clear manifestation of this, and for this to succeed, governance reforms must happen.

The event will add value by:

- Bringing together high-level decision-makers from politics, business and civil society that can set the direction for how the infrastructure pipeline can be boosted through better governance.
- Ensuring that senior officials, reputable business partners and sector experts meet and share knowledge about concrete cases and what works
- Making ready-to-use tools available - unfolding the standards and tools that have been developed; develop specific demand driven knowledge products that build on what is needed going forward.

AGENDA

8:30 - 8:55

Registration / Coffee

8:55-9:00

Opening Remarks

Amadou Oumarou, Senior Director, AfDB / Pierre Laporte, Country Director, World Bank

Session 1: Opening Ceremony

9:00-9:30

Opening short statements by distinguished speakers

Presenters

Pascale Dubois, Vice President, World Bank (chair)

9:30-9:45

Family Photo

Session 2: Why is Infrastructure so hard to get right?

The objective of good infrastructure policy is to make the right projects happen in a manner that is cost efficient, sustainable, affordable and trusted by users and citizens. In addition, it is a priority to make the best use of the private sector and allow for innovation. This presents a challenge.

The panel will confront the issues by way of addressing three sets of questions:

9:45-11:15

- What are the main governance issues and bottlenecks to successful infrastructure investments?
- What can we learn from the cases that were successful?
- How do we move forward on this topic?

Presenters:

Tom Barrett, Chairman of the OECD Infrastructure Forum (moderator)

Pascale Dubois, Vice President, World Bank

Kaba Niale, Minister of Planning and Development, Cote D'Ivoire (to be confirmed)

Alamine Ousmane MEY, Ministre de l'Economie, Plan et Aménagement du Territoire, Cameroun (to be confirmed)

Charles-Henri Malecot, STOA

Sydney Domoraud, Managing Partner, EMIRE

Tafadzwa Pasipanodya, Foley Hoag

11:15-11:30

Coffee Break

Session 3: Designing a strategic vision is crucial but difficult to implement

A necessary condition for a successful infrastructure program is appropriate strategic planning that sets a long-term vision, but this is easier said than done. While identifying a long list of projects is relatively easy, prioritizing it is not. It requires that the country negotiates the inevitable trade-offs of limited fiscal space, competing interests from stakeholder groups and marries the immediate needs with long term prospects. Key questions to be addressed include:

- What should be included in a strategic plan for a long-term infrastructure vision?
- What can we learn from the successful cases of infrastructure vision?
- Are the key capacities governments must focus on?
- What are the key implementation obstacles?

Presenters

Amadou Oumarou, Senior Director, AfDB (moderator)
Romuald WADAGNY, Ministre de l'Economie et des finances, Bénin (to be confirmed)
Himesh Dhungel, MCC
Chucheka Mhlongo, DBSA
Amadou Thierno Diallo, IDB
Abdourahmane Cisse, Special Advisor to the President, Cote D'Ivoire (to be confirmed)
Isabelle Van Grunderbeeck, EIB
Marc Teyssier d'Orfeuille, Com'Publics

Lunch

Women in Infrastructure Lunch

13:00-14:00

Lunch meeting of senior female representatives working in the infrastructure governance space. This will act a forum for these women to share their experiences in infrastructure.

Please note that these lunches are held separately from each other

Session 4: Open Discussion Sessions

14:00-15:30

There will be four concurrent discussions held for 40 minutes each. Delegates will choose one of these four sessions to attend. Once the first session concludes, there will be a five-minute transition period before a new set of concurrent sessions begin. Delegates will again choose one to attend.

Round 1

14:00-14:40

Maximizing Finance for Development

Abha Joshi-Ghani, World Bank Group

Stakeholder Management and Consultation

Claude Wetta, Réseau national de lutte anti-corruption (to be confirmed)

Climate Impact on Infrastructure

Ousseynou Nakoulima

Fiscal Challenges in Infrastructure Procurement

Bacari Koné, IMF

Round 2

14:45-15:25

Unsolicited Proposals

Philippe Neves, PPIAF

Unblocking Pipelines: How can better coordination help?

Magdalene Apenteng, Ghana PPP Unit and Nathalie Brou-Fofana, BOAD

What comes next: Downstream

Himesh Dhungel, MCC

Doing Infrastructure in Fragile & Conflict-Affected States

Fernanda Ruiz Nuñez, World Bank Group

15:30-16:00

Coffee Break

Session 5: Making sure it's done with integrity

Infrastructure can have a great impact on citizens' lives, trust in government and on the environment for years to come. It falls to the government to ensure that people are heard, that decisions are made transparently, that all the important information is made public and that integrity and corruption threats are identified and managed. Some key questions to address include:

- 16:00-17:30
- What are we trying to achieve with transparency, disclosure, consultation and data collection?
 - What can go wrong and how to avoid that?
 - What are good practices and have they worked?

Presenters

Edward Olowo-Okere, Director, World Bank Group (moderator)

Aisa Kirabo Kacyira, Deputy Executive Director and Assistant Secretary-General, UN Habitat

Eric Jean Yobue, AfDB

Christiaan Poortman, Chair of the Board, CoST

M. Bassatigui Fofana, Député, Côte d'Ivoire et Assemblée parlementaire francophone (APF)

Mehita Sylla, IFC

Cécile COUPRIE, AFD

Rapporteur Reporting

- 17:30-18:00
- In this session, rapporteurs from each breakout group will discuss the salient points that emerged from each of the conversations in the previous session.

- 18:00-18:30 **Chairman Statement and Commitment for Actions**

- 18:30-22:00 **Participants Cocktail**
-

9:00-9:30

Opening Ceremony

Pierre Guislain, Vice President, AfDB

9:00-11:30

Case Studies

This session will provide first hand informal exchange. A practitioner will share the story of a project or case followed by a short but vibrant off-the-record conversation.

The case studies will cover infrastructure services that perform a public role. There will be varying degrees of private participation, i.e. pure public works contracts, service concessions, full concessions, PPPs, SOE-PPP arrangements. The cases will cover a range of sectors such as energy, transport, and water. For all the cases, the asset will have reached the operational stage. The speaker will either be a representative for the public or private side in the deal. The deal will have lived up to good governance principles, broadly speaking.

There will be five concurrent case studies presented in the first hour, followed by five different case studies in the second hour. Each case study will be presented twice.

Session 1: 9:30-9:55

- Sogakope-Lome Transboundary Potable Water Supply Project | *Abdoulaye Traore-Zakari*
- Benin Rural Water | *David Bot Ba Njock, IFC*
- Guilab | *Mohamed Diallo*
- Senegal Taiba Ndiaye Wind Farm | *Maude Vallee, ALSF*
- Dakar-Diamniadio Toll Highway | *Rokhaya Diallo-Diop, AfDB*

Session 2: 10:00-10:25

- Sogakope-Lome Transboundary Potable Water Supply Project | *Abdoulaye Traore-Zakari*
- Benin Rural Water | *David Bot Ba Njock, IFC*
- Guilab | *Mohamed Diallo*
- Senegal Taiba Ndiaye Wind Farm | *Maude Vallee, ALSF*
- Dakar-Diamniadio Toll Highway | *Rokhaya Diallo-Diop, AfDB*

Session 3: 10:30–10:55

- Morocco Ouarzazate Solar Complex Project | *Mustapha Bakkoury, President, and Adama Moussa, Task Manager, AfDB*
- Henri Konan Bedie Bridge | *Rokhaya Diallo-Diop, AfDB*
- Frontloading Conditional Grants: The Amathole District Municipality Sanitation Programme | *Chucheka Mhlongo, DBSA*
- Building Infrastructure with Integrity: How MCC Put Principles into Practice in Building Road Infrastructure in Senegal | *Yohannes Abebe, Global Practice Lead for Transportation & Vertical Structures, MCC*
- Good infrastructure governance: The keys to success | *Assiba Djemaoun, AFD*

Session 4: 11:00–11:25

- Morocco Ouarzazate Solar Complex Project | *Mustapha Bakkoury, President, and Adama Moussa, Task Manager, AfDB*
- Henri Konan Bedie Bridge | *Rokhaya Diallo-Diop, AfDB*
- Frontloading Conditional Grants: The Amathole District Municipality Sanitation Programme | *Chucheka Mhlongo, DBSA*
- Building Infrastructure with Integrity: How MCC Put Principles into Practice in Building Road Infrastructure in Senegal | *Yohannes Abebe, Global Practice Lead for Transportation & Vertical Structures, MCC*
- Good infrastructure governance: The keys to success | *Assiba Djemaoun, AFD*

Building Infrastructure with the right tools

Officials and decision-makers face concrete issues regarding infrastructure: when to use PPPs, how to develop a project pipeline that is operational, how to ensure alignment across levels of government, how to build a clear business case, allocating risks to the parties best able to handle them, choosing and using transaction advisors. This session will present some of the tools and approaches that can help.

1:30–12:30

Breakout 1

APMG PPP Certification | *Andre Kruger*

PPP Disclosure Framework - Nigeria (ICRC) | *Chidi Izuwah*

Guidance on PPP contractual provisions | *Christina Paul, World Bank Group*

12:30–13:30

Lunch

Breakout 2

13:30–14:30

Providing Essential Infrastructure in Fragility, Conflict and Violence-Affected States: A toolkit for enabling SME participation | *Ian Hawkesworth*

PPP Procurement Benchmarking Study | *Fernanda Ruiz Nuñez, World Bank Group*

GIF Project Selection Tool | *Jason Zhengrong Lu, GIF*

14:30–14:45

Coffee

Breakout 3

14:45–15:45

Allocation Assessment Tool | *Morag Beaird, GIH*

Building a transparent and realistic pipeline of projects | *Christophe Dossarps, SOURCE*

Public Investment Management Assessment Tool and PFRAM | *Benoit Wiest, IMF*

15:45–16:00

Coffee

Breakout 4

16:00–17:00

White Paper on trends and developments in Infrastructure Governance | *Andrew Davies, OECD*

IDA 18 Private Sector Window | *Ighodaro Omoigui and Peishan Yeo, World Bank Group*

The 5 Case Model | *Javier Encinas*
