

What does “climate-smart PPP” mean?

What *standards* should be followed and how can they be enforced?

Where can I find sample wording for bidding documents and contracts?

Where can I find sample power-purchase agreements for renewable energy contracts?

PPPLRC can help.

The **Public-Private Partnership Legal Resource Center (PPPLRC)** formerly known as Public-Private Partnership in Infrastructure Resource Center for Contracts, Laws and Regulations (PPPIRC) provides free and easy access to an array of resources and sample legal materials which can assist in the planning, design and legal structuring of any infrastructure project — especially a project which involves a public-private partnership (PPP). Established in 2005, the site is one of the most viewed and established online resources on PPPs globally, with over 1 million unique visitors annually. Visit the new and improved PPPLRC site at <https://ppp.worldbank.org> to find out more.

To launch the new version of the site, please join this joint World Bank/IFC event for a tour and discussion on how the PPPLRC can help with your work. We will discuss, *inter alia*, recently updated sections on Climate-Smart PPPs, Gender and PPPs, and new resources in the Energy, Digital and Transport sectors.

DC Session: Tuesday, March 8, 9-10 am, DC | 10-11 pm, Singapore

Asia Session: Thursday, March 10, 9-10 am, Singapore | 8-9 am, Jakarta |
Wednesday, March 9, 8-9 pm, DC
