**E. Development Budget** The Project Manager shall produce a budget for expenditures incurred or expected to be incurred by or on behalf of the Parties during the Development Process, which shall set forth a reasonably detailed break down of expected Development Costs and Deferred Costs.

#### **IV. PROJECT COSTS**

**A. Costs Generally** Each Party shall bear its own direct and indirect costs and expenses, including internal costs and expenses, incurred in connection with the Project, the Development Process, and the performance of such Party's obligations under the Agreement. **B. Prior Costs** The Parties will establish a schedule setting forth the mutually agreed internal and third party costs and expenses related to the Project incurred prior to the date of the Agreement.

**C. Deferred Costs** The Parties agree that the internal cost to each Party of providing a Representative to serve on the Management Committee, and other personnel working specifically on development of the Project and the travel expenses and disbursements of such personnel, will be funded by such

Party during the Development Process and accrued until Financial Close. Each Party shall document such Deferred Costs and submit an accounting of these costs to the Management Committee for approval on a monthly basis.

In determining the amount of each Cash Call, the Project Manager shall consider Development Costs projected to come due during the relevant period in accordance with the then current Development Budget, any cash remaining from prior Cash Calls and the amount of unreimbursed Development Costs each Party has expended. Each Party shall pay the amount of the Cash Call not later than 7 days after receipt of the Cash Call.

**F. Reimbursement of Costs**

Each Party shall send an invoice to the Project Manager monthly in respect of the Development Costs listed above.
